NOTE: There is one other aspect
of this whole situation which
is not an OSI job, but is of
CIA interest because it is of
interest to national security.
That is:

The mass flying, since CIO
reports could be

- (a) produce mass hysteria
- (b) give outbreak of
radiation warning system
- (c) overload communication
facilities.

NOTE: There is one other aspect
of this whole situation which
is not an O.S.I. job, but is of
CIA interest because it is of
interest to national security;
that is:

The mass flying since CFSO
reports could be

- (a) produce mass hysteria
- (b) give advantage over
radiation warning system
- (c) overload communication
facilities.
